

New Touchpad Blast Chillers & Freezers

Safety | Quality | Preservation

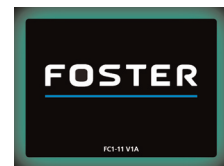

Foster's new Touchpad Blast Chillers and Freezers are an essential element of any professional kitchen, and are key to maximising the condition, taste and texture of your food. These units also make a major contribution to helping your kitchen meet food hygiene standards, preserving the quality of your food and reducing food waste.

Cabinet Blast Chillers & Chiller/Freezers

- > Exceed your quality expectations. Capable of blast chilling from +70°C to +3°C in 90 minutes, exceeding UK and European food safety requirements. Freezing capacity from +70° to -18°C in less than 240 minutes.
- > Intuitive easy touch control panel - Just press and go!
- > Easy to use colour coding to indicate cycle status
- > Timed or probe chill/freeze to suit your needs - simple programming options
- > Soft Chill, Hard Chill, Hard Chill Max and Shock Freeze programmes to suit all types of foods

Designed and engineered through customer research

< Intuitive easy-touch control panel. Just press and go.

< Easy to use colour coding to indicate cycle status.

< Keep your food fresher for longer with confidence.
