

Marine Catering

TAILOR-MADE EQUIPMENT AND FITTINGS FOR

Marine Catering

Kavika designs and manufactures high quality tailor-made steel equipment and fittings for variety of demands. The unique products are applicable in luxury liners, smaller passenger ships as well as in special purpose vessels.

Kavika is known for its 25 years of experience and expertise in project management, design and manufacturing. We have excellent track record throughout the years in over 200 new buildings and renovation projects working with number of turn-key suppliers, ship yards, ship operators, and owners.

Kavika designs their equipment according to customer's layout plans and technical requirements. Our products range includes e.g. custom table units, serving lines, kitchen fittings, heated/refrigerated counters and special equipment like fume cupboards. We also supply spare parts to all equipment manufactured by us.

Kavika's Renovation Service Package

In addition of marine catering equipment, Kavika is now able to provide refurbishment services to areas like restaurants and galleys via extended network of partners. These services can be provided worldwide and they include services like electrical installation and installation of decorative fittings and floors.

Please contact our sales for different possibilities.
