Our baking sheets are perfect for you if you bake a lot and desire the best possible result every time. The baking sheets do not shorten cooking time significantly compared to other sheets on the market, but they do offer you a wonderfully golden crust and crispy underside on your pizza or your rich bread loaf.

After eating, when it is time to do the dishes, there is another surprise. All you need to get the baking sheet sparkling clean is lukewarm water and a plain scrubbing brush. If you're using a dishwasher, our tests show that you can halve washing time with an iPinium baking sheet compared to a regular professional baking sheet.
