Item nr.	PB6
Size	250 x 50 x 85 mm
Weight	230 g

iPinium is revolutionizing Swedish cooking. With the skewers in our Potato Baker you can cook a tasty baked potato in 35-45 minutes, compared to 50-75 minutes using a traditional oven container. The secret, of course, is iPinium's unparalleled and patented aluminium alloy. The skewers' optimal capacity of absorbing, retaining and transferring heat significantly shortens cooking time compared to traditional cooking methods. At the same time the surface helps preserve the moisture in the potato. You can also cook corn on the cob, chicken legs, pork fillets and much more with the same amazing results. Food, quite simply, becomes tastier. Dishes also look more appetizing since the iPinium products give a beautiful cooking surface.

There is no need to use any fat while cooking. This of course means that you can offer guests a healthier, more nutritious meal.

After eating, when it is time to do the dishes, there is another surprise. All you need to get the Potato Baker sparkling clean is lukewarm water and a plain scrubbing brush. If you're using a dishwasher, you can shorten the time to the short ECO-program, totally eliminating the need for granules. This is what we mean with a whole new way of cooking!

This model has 6 skewers for baked potatoes, chicken legs, corn on the cob, pork fillets etc.
